

# JANUARY 2019

# connectMLS™

bridgeMLS is proud to announce the addition of a new MLS solution, connectMLS, available to all participants and subscribers in January 2019.

connectMLS is a fully-featured and completely customizable MLS solution, designed for ease of access from anywhere, anytime.

## Experience the connectMLS™ difference.

### Built by Experts

connectMLS was meticulously crafted by a former REALTOR®, so its functionality is seamless, intuitive, and designed with real estate professionals in mind.

### Lightning Fast

Incredibly fast response times, in terms of providing data in connectMLS, support, and customization.

### Top Rated

connectMLS has consistently placed first in the industry for rich features including: Overall Satisfaction, Mobile Access, Customer Service, and more.

### Future Oriented

The dynamic connectMLS team is ever-evolving to ensure the needs of every user are met.

# connectMLS™

## CORE FEATURES

### 100% Mobile-Friendly

Access MLS data via smart phone, tablet, or any other mobile device. The features of connectMLS are completely responsive and easily accessible from any mobile device. Just log in & go!

#### My MLS Home Page

An abundance of versatile functionalities and widgets that are fully customizable per end-user.

#### Power Searches

Powerful searches on any device that filter through thousands of listings to display results in a fraction of a second.

#### Client Web-Portal

A private and secure way to provide your clients with extensive data. Send property flyers, CMAs, real estate forms, statistical reports, and tax and financial reports.

#### Client Management

Collaboration features facilitate endless contact capabilities for agents that extend through to the client Web-Portal.

#### Real Estate Forms

Your local, state, and national real estate forms are directly embedded in connectMLS, where they can be filled-in, printed, saved, edited, and shared.

#### Customizable CMA

The flexible CMA module allows agents access to CMA summaries or comprehensive reports.

#### Mapping Tools

Tight and dynamic integration with powerful industry mapping programs.

#### Transaction Management System (TMS)

The TMS includes a document management system, milestone (task) management, participant collaboration, service ordering, activity and history log.

#### Property Flyers

Easy-to-use interface for lightning fast property flyers with extensive branding.

#### Statistical Reports

Comprehensive reports to help agents gain a better understanding of the market and provide valuable data to share with clients in a simple and understandable format.
